AN ELECTION CONTEST

One of Them Deposed of In the House.

THE O'NEILL VS. JOY CASE.

It Is Decided in Favor of John J. O'Neill, Who Will Represent the Eleventh District of Missouri—A Number of Resolutions Presented and Acted on in the Senate.

WASHINGTON, March 29.—When the speaker's gavel fell in the house yesterday there was less than 80 members on the floor. The house proceeded with some routine business pending a report expected from the rules committee for the disposition of the contested election cases of O'Neill vs. Joy and English vs. Hilborn.

Letters from the secretary of the treasury and attorney general were transmitted, asking for additional appropriations for the secret service and the United States courts.

Mr. Outhwaite (Dem., O.), from the committee on rules, reported a rule limiting debate to two hours each on the two election cases, the final vote to be then taken. Mr. Outhwaite demanded the previous question on the adoption of the rule. The vote on ordering the previous question resulted 164 to 0. Mr. Reed made the point of no quorum. The vote resulted 179 yeas to nay, one more than a quorum. The speaker voted in the affirmative. The result was greeted with applause. This is the first time for a week that the Democrats have mustered a quorum.

The resolution of the committee on elections declaring John J. O'Neill entitled to the seat for the Eleventh district of Missouri was read, and Mr. Patterson of Tennessee was recognized on the side of the majority report and Mr. Daniel of New York, of that on the side of the minority.

Mr. Patterson's statement involved a very elaborate and extended explanation of the Missouri ballot law.

Representative Daniels (Rep., N. Y.) in charge of the case for Mr. Joy, followed Mr. Patterson with a review of the Australian ballot law of Missouri, as applying to the Joy ballots. As to the objection that the initials of the election judges were not on the ballots, Mr. Daniels contended that this was an error to be charged against the judges and not against the voters.

A number of other members spoke on the subject until the limited time had expired.

The vote then recurred on the substitute for the report of the majority of the committee presented by the minority, declaring Mr. Joy entitled to his seat. The vote resulted: Yeas, 102; nays, 146. The substitute was rejected.

Mr. Burrows (Rep., Ills.) moved to reconsider and Mr. Springer (Dem., Ills.) moved to lay that motion on the table. The Republicans then precipitated another filibuster by making the point of no quorum on the division, and the roll call was taken, the Republicans refraining from voting. The vote resulted: Yeas 137, nays 8.

On motion of Mr. Patterson the house then, at 5:45, adjourned.

In the Senate.

WASHINGTON, March 29.—Mr. Pettigrew of South Dakota introduced two resolutions which were agreed to, one calling on the secretary of the treasury for information regarding changes made in the weight or fineness of silver coins of silver standard countries, and the other calling on the secretary of the interior for information as to whether the sugar refineries have complied with all the provisions of law in regard to the taking of the census.

A resolution introduced by Senator Frye and agreed to, asks the secretary of war whether subordinate employees and laborers engaged by engineer officers on works of public improvement have been employed or discharged for political reasons.

Mr. Peffer of Kansas offered a resolution directing the finance committee to prepare a bill for the repeal of all laws authorizing the secretary of the treasury to issue bonds or other interest bearing obligations without specific authority of congress. It was temporarily laid on the table.

The resolution offered several days ago directing the committee on judiciary to inquire whether the existing statutes are sufficient to punish simulation of silver coins by coins of like metal, weight and fineness was laid before the senate by the vice president, and after a short discussion was agreed to.

Senator Berry of Arkansas called up the resolution authorizing and directing the secretary of the treasury to receive at the subtreasury in New York from R. T. Wilson & Company, or assigns, the money amounting to \$6,740,000 to be paid to the Cherokee nation and to place the same to the credit of the Cherokee nation. It was agreed to.

Then, at 1:30 p. m., upon motion of Senator Call of Florida, the senate proceeded to the consideration of executive business.

At 2:10 p. m. the doors were again reopened and the senate took up the McGarrah bill, Senator Morrill of Vermont speaking in opposition to the claim.

Mr. Hunton of Virginia followed Mr. Morrill and argued in favor of the bill. At 4 o'clock Mr. Hunton concluded his speech and Senator Vilas rose to address the senate, but yielded to a motion for an executive session made by Pugh, which was carried.

At 4:05 p. m. the senate adjourned.

Mill Company Falls.

HAMILTON, O., March 29.—The Miami Milling company has assigned to H. L. Krauth. No statements of assets, liabilities or preferred creditors have been submitted.

BOILER EXPLOSION.

An Accident on a Steamboat by Which One Life Was Lost.

POINT PLEASANT, W. Va., March 29.—The pump boat Hero, belonging to Armstrong Brothers of this place, bursted her boiler about 2 o'clock yesterday, while lying alongside the Annie L, killing the engineer, John McGuffin, and wounding several others.

The United States inspectors were aboard the Annie L at the time and one of them, Mr. Ira Huntington of Gallipolis, was quite severely scalded. They would all have doubtless been killed but for the fact that they were in the engine room at the time of the explosion.

The Hero is a total wreck, sinking in two minutes. As nothing but the engineer's hat and one shoe have been discovered, it is thought he was literally blown to atoms. One side of the Annie L was badly damaged.

The Latest Egg Story.

PORTLAND, Ind., March 29.—Jacob Strollman, a farmer living northwest of this city, tells the latest. A few days ago some one of his family killed a very fat hen. On dressing the chicken an extraordinarily large egg was found, upon which the shell was just forming, and within it was another, the size of a common hen egg. Curiosity prompted further investigation, and inside of number two was a third one of the proportions of a quail's egg, while within it was still a fourth, perfectly formed but of minute dimensions. Mr. Strollman vouches for the truth of the statement and says it is accurate in every particular.

Nothing More Heard From the Kearsarge.

BOSTON, March 29.—At the office of the Boston Towboat company nothing is known of the Kearsarge wrecking expedition beyond the information contained in Tuesday night's press dispatch. The Orion will remain at Havana and load a cargo of sugar for this port.

The wreckers here are surprised at the news that the Orion saved nothing from the wreck. They say that the Kearsarge's composition propeller and standard are worth not less than \$400 and could not have been taken by the native pirates on account of its massive proportions.

Express Robber Captured.

PORT SMITH, Ark., March 29.—Charles Ketchum, alias Charles Harden, wanted by the Wells-Fargo Express company, was captured yesterday at Alina, Ark. In 1892, while acting as messenger of the express company between Cincinnati and Louisville, two packages containing \$35,000, were placed in his charge and when they arrived at Galveston they were found to contain nothing but brown paper. When arrested yesterday \$19,000 was found upon his person.

Infected Sheep in Utah.

DENVER, March 29.—Complaint has been made to the state veterinary board that Utah sheep men invaded Mesa, Delta and Garfield counties with sheep infected with scab. Feeling runs high and Governor Waite may have to call out the militia. A petition having over 2,000 signatures has been presented to the federal authorities at Washington, asking for the protection of Mesa county reservation from damage by Utah sheep.

Murdered by His Companion.

MACON, March 29.—The remains of Alfred H. Colquitt were interred in Rose Hill cemetery yesterday with impressive ceremonies. The honorary pallbearers were Clifford Anderson, James A. Blount, O. A. Bacon, Judge Charles T. Bartlett, W. Loundes Calhoun, S. B. Price, Judge Speer, Judge Ross, General Clement A. Evans, Dr. J. S. Baxter and Captain R. E. Park. Several thousand citizens followed the body to the church.

Murdered by His Companion.

LONDON, March 29.—A dispatch to The Times from Shanghai says that Kimokkium, the leader of the Corean conspiracy of 1884, who was subsequently imprisoned in Japan for the part he took in that affair, was released recently and arrived here Tuesday. He was accompanied by a companion, who yesterday murdered him. It is supposed that the murderer was acting under orders of the Corean government.

Temporary Injunction Dissolved.

ST. LOUIS, March 29.—Judge Thayer, in the United States circuit court, has dissolved the temporary injunction granted the complainants in the damage suit for \$500,000 filed against the N. D. Thompson Publishing company and the C. B. Woodward Printing company of St. Louis, and R. S. Peale of Chicago, by C. D. Arnold, H. D. Higinbotham and the world's fair Columbian exposition at Chicago.

Killed His Landlord.

OWENSBORO, Ky., March 29.—Scott Gray shot and killed J. H. Borders in the Fifths neighborhood, 19 miles from this city. The men had trouble over the rent of a farm which Gray rented from Borders. Gray gave himself up and has retained Congressman Ellis as his counsel. There were no witnesses to the tragedy, and self-defense is claimed by Gray. Gray is a highly respected farmer.

A Ten Million Cut.

WASHINGTON, March 29.—The committee on rivers has completed its bill and it is expected its contents will be made public Saturday. The committee has scaled down appropriations for improvements of rivers and harbors. The bill as finally agreed upon in committee, carries an aggregate appropriation of \$9,500,000, a decrease of \$10,500,000 over appropriations of last year.

Da Gama Can Land Next Sunday.

LONDON, March 29.—The correspondent of The Times at Buenos Ayres telegraphs that the 10-days quarantine imposed on the Portuguese warships Mindelo and Albuquerque, which brought Admiral Da Gama and a large number of other Brazilian insurgents from Rio Janeiro, will expire on Sunday.

AN EXILE NO LONGER.

Back to His Native Land Goes Kossuth's Clay.

EVERYWHERE WHITE AND RED.

Thousands of the Dead Patriot's Countrymen Throng the Streets of the Alien City That Was His Refuge So Many Weary Years—Then the Long Journey Home Was Begun.

TURIN, March 29.—The funeral services over the remains of Louis Kossuth were held in the Evangelical church yesterday. The city was crowded with sightseers and the streets presented a most remarkable appearance, owing to the immense number of Hungarians, in full national costume, who mingled with the throngs.

The streets through which the funeral procession passed were lined by the municipal guards and on all sides were to be seen mourning emblems and crepe-draped flags.

The coffin inside the church rested upon a handsome catafalque and was covered with flowers. Standing picturesquely around the catafalque was a guard of honor of Hungarian students in the national costume. This guard of honor will accompany the remains to Buda-Pesth with the representatives of the municipality of that city.

Owing to the fact that the church could not hold one-tenth part of the Hungarians assembled in the city, much less the representatives of the many foreign nations who desired to do honor to the memory of Kossuth, only the chief representatives of the Hungarian delegation and the leading representatives of foreign nations were able to obtain admittance. Near the catafalque were the sons of Kossuth, his sister and his nephews.

Pastor Peyrot delivered the funeral address in Italian, eulogizing Kossuth's private virtues and patriotic devotion to Hungary. The choir then sang a choral hymn written by Luther and an anthem composed by Palestrina.

After the simple ceremonies, the coffin was laid upon the funeral car, drawn by four horses, and the procession moved slowly towards the railroad station.

The cortège was headed by a detachment of mounted municipal guards followed by the municipal band playing funeral marches; the mayor of Turin and General Turr Markus, the deputy mayor of Buda-Pesth and Dejny Rohonczy, representing the Hungarian diet. Then came the pallbearers and after them followed the funeral car.

Behind the coffin were the sons and other relatives of the great Hungarian, and next came delegations from Hungarian societies, from countless Italian societies and from the Garibaldian associations.

These were followed by the representatives of innumerable Masonic lodges and behind them was the main body of the Hungarians and other people who took part in the procession. In all there were 20 banners draped with crepe, carried by the delegations which took part in the funeral parade.

After the coffin had been deposited in the mortuary pavilion at the central entrance of the railroad station, the mayor of Turin delivered a most sympathetic oration and then formally gave the remains into the care of General Turr Markus, representing the municipality of Buda-Pesth. The ceremonies were terminated with speeches delivered by men of minor rank.

During the course of his remarks at the railroad station, Deputy Rohonczy expressed on behalf of the Hungarian diet, profound gratitude to Italy and to King Humbert for giving Kossuth a second fatherland.

After the ceremonies a number of Hungarians placed floral wreaths upon the Garibaldi and Cavour monuments.

During the afternoon Kossuth's sons called upon the mayor of Turin and upon the prefect, thanking these officials for the marks of sympathy shown by the people of Turin.

Shortly before 9 o'clock last night the special train to convey the remains of Kossuth to Buda-Pesth came into the station and the coffin was placed on the train. The guard of honor, composed of Hungarian students, then took their places in the carriage together with the members of Kossuth's family and the representatives of the municipality of Buda-Pesth.

A detachment of military was present and at 9 o'clock, as the train started on its journey to the Hungarian capital, three volleys were fired.

The municipal authorities of Turin have decided, as a mark of respect to the memory of the great Hungarian, to have a tablet, bearing a suitable inscription, set in the front wall of the house in which Kossuth died.

PRESIDENT PEIXOTO'S DECREES.

Insurgents Will Be Tried by Military Law Before Being Shot.

RIO JANEIRO, March 29.—[Copyrighted, 1894, by the Associated Press.]—The foreign office authorizes the Associated Press to deny that President Peixoto has revived the imperial decrees of 1888 and 1891, allowing the execution without trial, of persons who have taken part in a rebellion against the government, or who have aided and abetted persons engaged in rebellion.

The decree of March 2, as previously cabled to the Associated Press, makes all persons accused of treason liable to trial by military law.

The decree of March 13 orders the police to shoot upon the spot persons who are caught plundering during a combat.

No other decrees have been issued bearing upon the subject by the government of President Peixoto.

MARRIED A COUNT.

Another Foreign Nobleman Captures an American Heiress.

NEW YORK, March 29.—The marriage of Miss Annie Seabury Brewster to Count Henri De Frankenstein is notable, not only from the fact that it brings a foreign title to another American girl, but it ends a wooing most enthusiastic on the part of the bridegroom. Miss Brewster is the daughter of William Cullen Brewster, president of the Plaza bank and a millionaire. The bride's uncle, who died a few years ago, left her \$1,000,000, which has since been increased by good investments. Miss Brewster is pretty, petite and a decided blonde.

Count Henri De Frankenstein comes from a wealthy old Polish family, which has long been a power with the Vatican. He is about 26 years old. His complexion, eyes and hair are dark and the lower part of his face is covered with a closely cut beard. He looks foreign and talks English with an interesting accent.

The streets through which the funeral procession passed were lined by the municipal guards and on all sides were to be seen mourning emblems and crepe-draped flags.

RICH MEN AND TAXES.

One of the most startling facts brought to light in Mr. Stead's book on Chicago is the way in which the rich men of that city escape their just share of taxation, says the New York World. Twenty years ago the assessment for taxation of the property of Chicago, real and personal, was \$312,072,995. In 1893 it was but \$245,790,351. Here is a shrinkage in twenty years of about \$70,000,000 in the assessed property, while, as everybody knows, the wealth of the city has enormously increased. The rich have found ways of concealing it from assessors, adds the World.

The assessors under oath make the following returns of the personal property of the richest citizens: Marshall Field, \$20,000; Marshall Field, Jr., \$2,000; P. D. Armour, \$5,000; George M. Pullman, \$12,000; J. W. Doane, \$12,000; H. H. Kohlsaat, \$1,500; C. T. Verkes, \$4,000; Potter Palmer, \$15,000. None of these men makes out or swears to his own account. The swearing is all done by the assessors, who are allowed by the Croesus grossly to undervalue their possessions for taxation. It is not without reason that Mr. Stead says: "There is a heavier sum in solid dollars pocketed every year by the official perjurers of Chicago than is paid to any other officials in the service of the city."

Commenting on the above, the World thinks that an income tax enforced by the National Government would fetch some millionaire tax-dodgers in Chicago and elsewhere to book. Now they escape doing their proper share in maintaining the institutions of government under which they fatten by the false swearing of others, connived at if not suborned by bribes. Many of them would not swear falsely themselves. Those who are willing to do it might not be able to buy off the Nation's assessors as easily as they corrupt their local officials.

"Such facts as these revealed of Chicago," says the World, "show why the rich are as a rule against an income tax. Without it they can escape doing their duty. They fear they may not be able to do so any more. Their talk about the evil of false swearing that it will promote, means nothing more than that they doubt their own ability to be more honest than they have been in this particular. But they do not relish becoming liable to the pains and penalties of perjury in their own persons. But so far from this being a reason against an income tax it is a strong reason for it. Too long and too heavily have taxes been imposed upon that part of the earnings of the people which is necessarily spent for shelter, food and clothing instead of upon the surplus which is saved."

The South Chicago Mill of the Illinois Steel Company, which employs 4,000 men, started up a few days ago, after a shut down of several months. On resuming work the company gave out this statement:

In resuming operations, the company has enough orders on hand to keep the mill running night and day for two years without intermission if not another single order should come in.

The Portsmouth Blade says that the company has made a cut of 25 per cent. in the wages of its employees. If the company has made any such reduction, with such an immense amount of work on hand, it is very evident that it is robbing its workmen of a part of their just pay.

THE PUBLIC SCHOOLS.

Notes and Comments by Mr. George W. Blatterman, County Superintendent.

BELLEVUE—DISTRICT NO. 32.

The trustees are R. L. Baldwin, John Whitaker and G. W. Adair. The teacher is Miss Annie Hudson. The trustees have erected a very neat, comfortable school house, conveniently located. They will soon supply it with patent desks and make kindling wood out of the old box desks in use at present, where each child looks as though he were in a cage. They have procured a full supply of charts, which are an important aid to teacher and scholars. Miss Hudson has taught this school nearly five years, and I have never heard a word of complaint. It is a delightful school to visit. The teacher and scholars are in thorough accord, and the children seem devoted to their teacher. The evidences of progress were very satisfactory. Recitations in arithmetic, with blackboard illustrations geography and composition were all very good. Archibald Paul gave an excellent recitation in history. Addison Baldwin showed excellent progress in writing. Arbor Day was well observed by this school. The following trees were planted: Ash, Adair, maple tree; Archibald Paul, pear; Willie Bradford, peach; Joseph Flanks, cedar; C. and O. Kilgore, poplar; Baldwin Cartmell, poplar; Clarence Paul, poplar; teacher, grape vines and climbing roses. I hope they may all live to enjoy the shade and the fruit and flowers. It is only a short walk to this school, and those who enjoy this exercise will find a cordial welcome and enjoy a visit to this excellent school.

FARRAR CREEK—DISTRICT NO. 46.

Trustees are Champe Farrow, M. L. Goddard and B. B. Reeder. Teacher, Miss Amy Goddard. Number of scholars in attendance, thirty-six. Under Miss Goddard, this school is always in satisfactory condition. The recitations were good and gave evidence of careful instruction. The trustees do their best in caring for the school house, but I rarely find it in good condition. There seems to be much lawlessness in the district and the house suffers from depredations.

Mt. GILEAD—DISTRICT NO. 22.

Trustees are J. W. France, Rees Green and J. L. Savage. Teacher, J. B. Bradley. Number of scholars in attendance, thirty-one. House in tolerable condition, although some repairs have been made and useful improvements have been added. Mr. Bradley is a veteran in the service and does good work. He uses the oral method for teaching grammar and the result is surprising and very satisfactory, but requiring much care and labor; he discards the text book method much to the advantage of the pupils. Mr. Bradley is a very valuable member of our corps of teachers, and I hope we shall be able to retain him, for we can not afford to lose a teacher so efficient and so thorough. This district is divided with Fleming County, which reduces the Mason County portion of the county fund.

A Good and Cheap Fertilizer.

Says an exchange: "One of the very best fertilizers is unknown, and yet it was discovered 200 years ago. It is too cheap and easily obtained, being nothing but lime and salt water. Wherever it has been used it has been found superior to almost any fertilizer on the market, and the preparation is very simple. Slack the lime to a thin plaster with a strong solution of salt in water. The muriate of lime is one of the hydroscopic of water-absorbing substances known among chemists as reagents, and when it exists in the soil the warmth of the sun, especially during a dry summer, has much less influence. Salt is a good fertilizer in itself, as is lime, and the combination is superior to anything else that can be used."

FINCH-CHURCH.

A Prominent Chicago Physician Weds One of Maysville's Loveliest Daughters.

The Nuptials Solemnized Last Evening at the Handsome Home of the Bride.

The handsome home of Mrs. Anderson Finch, at Third and Sutton streets, was a scene last evening of unusual loveliness.

The marriage of her daughter, Margaret M., to Dr. Archibald Church, of Chicago, was solemnized at 6 o'clock in the presence of a large and admiring assemblage.

The ceremony, according to the ritual of the Episcopal Church, was performed by Rev. D. D. Chapin, rector of the Church of the Nativity of this city.

The fair bride, always beautiful, never looked lovelier than in her bridal robe of immaculate white. She was attended by Miss Annie Leathers, of Louisville, Miss Bettie Welch, of St. Joseph, Mo., Miss Harriet Johnson, of this city, and Miss May Finch, her sister.

Flowers and rare plants combined to make the scene more attractive, and beauty, grace and refinement and culture held full sway. Seldom in the walks of a practical life is it one's pleasant privilege to witness an occasion such as that of last evening. The most exquisite taste was discernible in every feature. The guests were perceptibly affected by the charm of their surroundings, and genuine Kentucky hospitality pervaded all.

Miss Margaret Finch is widely known and greatly beloved in the community where she was born and has grown to womanhood. Her naturally bright intellect, superior education and refined and dignified manner rendered it an easy task for her to assume and steadfastly occupy a commanding place in the estimation of a large circle of acquaintances. Her father was the late Anderson Finch, cashier of Mitchell, Finch & Co.'s Bank of this city and one of the most highly esteemed citizens of the county. Her ancestors, both maternal and paternal, form a highly distinguished lineage, comprising wealthy and influential citizens in most all sections of Mason County.

The groom, Dr. Archibald Church, has been eminently successful in the practice of his profession at Chicago, and is a gentleman of rare social and literary qualities. The best man to the groom was Mr. Atwater, a prominent attorney of Chicago.

A most delicious collation was served immediately following the ceremony. The caterers were Wilson & Reeder, of Cincinnati.

Dr. and Mrs. Church were passengers on the 8:10 eastbound C. and O. train last night. The wedding tour will comprise a visit to principal Eastern cities and a sojourn of several weeks at the Bermuda Islands. They will be at home after May 1st at "The Virginia," Chicago.

The presents were numerous and beautiful and of rare value. The guests gazed long and admiringly at the exquisite collection.

Among the guests from a distance were Mr. and Mrs. Thomasson and daughter, Mrs. Stanley Fleetwood and son, Mr. Atwater, Dr. Reynolds, Mr. Mitchell and Mr. Johnson, of Chicago; Miss Annie Leathers, of Louisville, Miss Bettie Welch, of St. Joseph, Mo., Miss Louie Andrews, Flemingsburg, Mr. and Mrs. Perry Jefferson, Millersburg, Mr. Dan Runyon, Lexington, and Mr. Will Hays, Covington.

A UNIQUE INVITATION

To the Midwinter Fair in the Land
"Dowered With the Clime
of Climes."

A California lady writing to the BULLETIN sends an invitation to Colonel Hernon to come to the Midwinter Fair. She uniquely says: "For this occasion the State is yours. We have taken down our signs, which read: 'Keep off the grass.' We will give you the key to the Golden Gate. We have removed the barbed wire fences from our orange groves and ordered the sun to shine for you in March as it does in old Kentuck in May. California bids the BULLETIN representative welcome. Tie your horse to the corn crib and take an orange—take two of them. Go where you please,—take what you please,—do what you please. If you don't see what you want, ask for it. We can give you snow plants or pansies, strawberries or pineapples, peaches or bananas, loquats or lemons, oranges or apples. Sit down and have a cigar, smoke your pipe and have a plug of Cuba tobacco raised in Santa Clara County. After you have tried our olives and figs and wines and seen our vineyards, orchards and flower gardens and seen the products of seven zones, you will then be able to tell your BULLETIN readers something about California, dowered with the clime of climes—a land in which winter cold and summer heat are alike unknown."

A MAYSVILLE MAN

Participated in Some Incidents in the Checkered Career of Kosuth.

The death of the Hungarian patriot, Louis Kosuth, calls to mind some incidents in his checkered career, in which a Maysville man was a participant.

In 1851, the United States Government sent the war steamer Mississippi to the Mediterranean to convey Kosuth from Turkey in Asia to America as the Nation's guest. He was received on board the steamer September 1st, 1851, and reached New York December 5th.

William Nelson, afterwards General Nelson, was acting Marshal of the steamer and soon became an intimate acquaintance and friend of the Magyar and participated in the receptions tendered him at the various European cities and also at New York, Philadelphia, Baltimore, Annapolis and Washington City.

The Public Library of this city has a daguerreotype of the patriot presented by him to General Nelson.

CUSTOMS AFFAIRS.

Report of Their Administration at the World's Fair.

WASHINGTON, March 29.—Secretary Carlisle has sent to the house the report of John M. Clark, late collector of customs at Chicago, relative to the administration of customs affairs at the world's fair. The report is voluminous, and goes clearly into detail.

The business of the exposition in the matter of foreign exhibits appears to have been so conducted that loss to the revenue, if any, was so small as to be immaterial.

The fines and penalties imposed and paid into the treasury by those detected in attempts to defraud the revenue, have, it is believed, amounted to more than any loss the government may possibly have sustained from attempts that were successful.

Exhibits were received from 70 different foreign nations. They consisted of 162,600 packages, valued at \$14,797,693, and required about 8,000 cars to transport them. About 25 per cent of these goods remained in this country. The result of the appraisement of those entered for consumption shows an average increase of about 50 per cent on the foreign estimate of value made by the exhibitor.

These had paid an average duty of 27.94-100 per cent. Assuming this to have been a fair average of the rate of duty on all exhibits, the American value of foreign exhibits would be about \$28,000,000. Universities, schools and colleges, museums, etc., acquired some 9,829 packages, valued at \$1,552,230.

Sad Scene in a Station.

LOS ANGELES, March 29.—A sad scene occurred in the police station here yesterday, when Cronkhite, the embezzling county treasurer from Warren county, Ind., was taken from his cell and confronted by his wife and little boy, who had journeyed hither from Indiana, concealing their identity and also hoping to be met at the depot by the husband and father. They knew nothing of the arrest until they had waited several hours in vain.

Village Destroyed by Fire.

NORTH PLATTE, Neb., March 29.—The town of Sutherland, 16 miles west, was totally destroyed by fire last night. A high wind was raging at the time and the efforts to stop the fire were of no avail.

Didn't Stop For the Prince.

BERLIN, March 29.—The railway saloon carriage of Prince Albrecht, prince regent of Brunswick, was run into yesterday by a luggage train at Vienenburg, Brunswick. Prince Albrecht was thrown to the floor of the carriage by the shock of the collision, but fortunately beyond a somewhat severe shaking up he was not injured. The windows of his carriage were smashed, and some other damage was done to it. Vienenburg, the scene of the accident, is the junction of the Brunswick-Harzburg and the Magdeburg-Soest railway lines.

Mrs. Wilson Back in Washington.

WASHINGTON, March 29.—Mrs. William L. Wilson, wife of Representative Wilson, chairman of the ways and means committee, reached here from Texas yesterday after a long vigil at her husband's sick bed in that state and in Mexico. She stated that her husband was now well on the way to regaining his health. He was up and about, and while still weak, he was rapidly getting back his strength. He needed no further nursing, so that his son had gone on a fishing expedition and Mrs. Wilson had gone north.

New Trial Refused.

LITTLE ROCK, March 29.—Judge Hughes of the supreme court yesterday refused to grant a new trial in the case of Thomas Brady, sentenced by the Jackson county circuit court to be executed at Newport April 6, for the murder of Conductor W. P. McNally. Brady was the leader of the band of desperadoes who held up and robbed an Iron Mountain train on Nov. 3, 1893.

Fire in the Senate Chamber.

WASHINGTON, March 29.—Fire broke out in the waste room of the terrace of the senate yesterday afternoon. It was quickly extinguished, but the smoke caused considerable excitement in and about the senate chamber.

Happy face 'neath the tattered bonnet, Merry eyes matching the ribbons on it; What matter the old, torn shawl and gown? With her sunny hair for a golden crown She's the richest queen in all the land— With her happy face under the bonnet.

Her kingdom, the hillocky meadows fair; Her subjects, the birds and butterflies there; Her wine, the dew in the floweret's cup; Which she quaffs with glee, ere the sun is up. She's the proudest queen in all the land,

With her winsome face under the bonnet.

She cares not for fashion, care not for fame, She knows not what her mother put her name. She wears bright jewels, they glow when sweet, And they lift their heads, when the flowers sweet. She's the happiest queen in all the land,

'Neath her old and faded bonnet.

To those who are blessed with wealth untold, Comes not such joy as her life doth hold, They are not happy—how little they feel! We may find if we search through all the land A queen 'neath a tattered bonnet.
